

# GAME READY

## ARE YOU GAME READY?

The Game Ready is the hunting rifle package you've always wanted, but no one has ever made. Standard or fully ambidextrous controls ensure you bag your game under any conditions. Mounted and bore-sighted optics means you spend less time on the bench, and more time in the field. The Game Ready features an 18" 6.5MM Grendel barrel, LVDA rail, muzzle device, and a fully adjustable stock. With a choice of a TS-12X or the TS-25X, and a variety of reticle options, the Game Ready allows the hunter to tailor the rifle to their environment.
