

VENATOR

Accurate, Reliable, and Lightweight have long been the unachievable “Holy Grail” of the precision AR platform...until now.

Every Venator is guaranteed to shoot .5MOA. Period.

Offered in multiple chamberings, our Venator AR10 is the perfect choice for tactical operations, big game hunters, and precision rifle competitors. The matched 7075 Billet receiver set combined with our proprietary assembly process provide the foundation for the Venator's renowned accuracy. The Venator can be tuned using the adjustable gas key built into the BCG, making it suppressor ready and features premium parts throughout, including a PROOF Research™ Carbon Fiber Barrel and fully adjustable trigger system.

STARTING AT \$5999
