

MARKING VARIANCE PROGRAM

1. This document will explain the process of purchasing variance lowers from ZRODelta and gather the necessary information to ensure your needs are met accurately and efficiently.
2. You must have a Type 07 (Manufacturer of Firearms) FFL to participate in this program.
3. The first requirement is to complete and submit the Variance Application, which will be sent to the ATF for approval. The approval from the ATF is currently taking about 30 days.
4. After the ATF has approved and returned your variance request, you are ready to place your order for lowers.
5. There is a minimum order of 10 Lowers. We offer both ambidextrous and standard lower receivers. Types can be mixed and matched to achieve QTY minimum thresholds.

a. Stripped Standard, Black Anodized Lower pricing:

10-24, \$104.99

25-49, \$84.99

50-100, \$79.99

b. Stripped Ambidextrous, Black Anodized Lower Pricing:

10-24, \$119.99

25-49, \$99.99

50-100, \$94.99

c. Complete lower assembly Standard, Black Anodized pricing.

10-24, \$169.99

25-49, \$149.99

50-100, \$144.99

d. Complete lower assembly Ambidextrous, Black Anodized pricing

10-24, \$169.99

25-49, \$149.99

50-100, \$144.99

e. Complete lower assembly Ambidextrous, Cerakote pricing:

10-24, \$189.99

25-49, \$169.99

50-100, \$164.99

f. Pricing includes one logo, name, serial number, model, city, state, “FIRE” and “SAFE” engraved on your lowers.

g. We can add additional items to the lower besides the 1 logo and standard ATF requirements, however there will be a onetime set up fee of \$50.00 for the setup and an additional charge of \$5.00 for each lower engraved with the additional items. **Variance payment is required in full prior to marking & anodize.**

6. Prior to placing your order for approval we will require the following information:

- a. Quantity of receivers by type
- b. A black and white copy of your logo in a .png or .jpg format
- c. A complete layout of the engraving required using the attached format.
- d. Specific font for the text to be engraved. The standard text is arial, shown here:
YOUR LOGO
- e. Specify whether you desire Fire/Safe or pictograms for the selector.
- f. Specify whether you desire black anodizing or single color Cerakoted finish.

7. Once you place your order, you will be sent a copy of the sales order, which will show the quantity and total amount due. We will provide the final layout of the engraving for your approval. Payment is due before engraving is initiated.

8. The lowers will then be engraved and anodized.

9. Your lowers will be inspected before they are transferred and shipped.

Please return to the Marking Variance website page to start your Marking Variance request.
